## ABOUT ME

I am a **scrum master** located in Timișoara, România. I like not to be a manager, but a facilitator, a listener and to pay attention to the challenges faced by my Scrum Team.

In October 2010, I moved from Petroșani to Timișoara. In 2013, I started full time work at Toluna România, a marketing company specializing in surveys development. After this I worked at two other software companies and I'm currently developing my skills at Continental Automotive România as a scrum master facilitating daily scrum, sprint planning and review, retrospective meetings, organizing backlog refinement sessions where we use planning poker cards to estimate the story points of each new Jira user story from the current backlog. My main abilities are analytical thinking, problem solving and Agile processes. I am future oriented, having very high standards for performance and strong interests in innovation and creativity.

## EXPERTISE

## STATS ABOUT MY WORK

## HOBBIES AND INTERESTS

Reading **Travelling** Photography **PUBG** Soccer  
**Music** Friends **Cars** Pets

"The goal in life isn't to be perfect,  
but to be progressively less stupid"

*Marshall Rosenberg*
